Re: Maryland Offshore Wind – Determination of Application Completeness

Dear Mr. Collins,

In compliance with the Maryland Offshore Wind Energy Act of 2013, the Public Service Commission of Maryland (“Commission”) retained a team led by Levitan & Associates, Inc. (“LAI”) to assist in the evaluation and comparison of a potential applicant’s proposed offshore wind (“OSW”) project. On August 23, 2016, an application for a proposed OSW project was submitted to LAI through the dedicated and secure website. Pursuant to the Code of Maryland Regulations (“COMAR”) 20.61.06.01, LAI hereby notifies the Commission that we have completed our initial review of the submitted application and determined that it is administratively complete, *i.e.* the application contains the information described in §§D through N of COMAR 20.61.06.02.

Please contact me at (617)531-2818 x26 or at [sgp@levitan.com](mailto:sgp@levitan.com) if you have any questions.

Sincerely,

Seth G Parker  
Vice President & Principal
